Footnotes:

- ¹⁾ urgent work performed at a surcharge of 25%
- ²⁾ fees may vary due to extraordinary requests and currency exchange rates
- ³⁾ for new and non-Swiss clients, an advance payment may be requested
- ⁴⁾ Da Vinci Partners LLC’s normal hourly rates vary from 175 to 600 CHF/hour, where attorneys-at-law bill between 400-600/hour. The above estimated total costs for certain types of services/interventions are normally billed in these amounts stated below. However, upon request and where prior agreement has been reached, *startup clients* may benefit from a hourly rate of 390 CHF for technical patent services and IP valuation services for the first year of our working relationship. After this first year, Da Vinci Partners LLC reserves the right to adjust its rates to above rates or market conditions.

Expenses, retainer fees and paralegal work. In order to reduce costs to our clients, paralegals and assistants help the attorneys perform their tasks. Their time spent on a particular task associated with a client file is billed at a rate between 175 and 200 CHF/hour. Patent Engineers bill more per hour, depending on experience. Attorney travel time in which we are not able to work is billed at 350 CHF/hour, although we attempt to put our travel time to good use for our clients. If the intervention permits our taking a train, we bill for train travel to the nearest major train station to the client’s location only to the extent that we are able to work on the client’s behalf en route. All expenses are added to our invoices, together with an administrative charge of 25% (10% for established clients). Prior to performing any significant work, new clients will be expected to pay and maintain a retainer/provision of typically 5000 CHF for services (depending on the costs we may incur on the client’s behalf—we will then bill any expenses up to the amount of the advance at cost). We reserve the right to request that any official filing fees over 800 CHF be paid in advance. Further, our minimum billing increment is 0.2 hours. All

actions in which we intervene on your behalf are billable, such as telephone consultations, preparation for meetings and office visits. All costs are billed to the client. Postage and copies at cost, and at 0.50CHF per copy.

In addition, the above pricing is based on a typical situation, unless otherwise noted. Each case varies. Additional page fees, excess claims fees, etc. may apply. Estimates are provided based on a typical situation and so actual costs can vary widely. Further, the above rates are dependent on time availability and may change without notice. Finally, Da Vinci Partners LLC has no control over official fees—these are billed at cost plus, as expenses.

By engaging us, the client expressly agrees to the above fee schedule and terms, that Swiss law and the exclusive jurisdiction of Swiss courts applies regarding any disputes that arise from the relationship.
